

Notice Concerning e-CalWebFiling System Availability

July 22, 2003

The U.S. Bankruptcy Court for the Eastern District of California's electronic case filing system (e-CalWebFiling) has been taken offline and is no longer available for the submission of electronic report data by chapter 7 panel trustees. Although not used by the Court to make entries in the official record, electronic trustee report data is still needed by the Office of the U.S. Trustee to update its records. As a result, chapter 7 trustees should continue to prepare electronic trustee report data files using their trustee software. But, instead of using the Court's Internet site to upload the report data files, chapter 7 trustees should attach the files to an e-mail message and send them directly to the U.S. Trustee addressed as follows: Irma.Garcia@usdoj.gov.

A new system for the electronic submission of PDF formatted documents that don't require payment of a fee in chapter 7 and chapter 13 cases and related proceedings will be available September 2, 2003. Enhancement of the new system to permit the batch processing of documents, including trustee reports, is expected to be completed before the end of this calendar year. Please check the [What's New](#) page of this site beginning mid-August for information concerning system features and user access.
